Taj Mahal, India

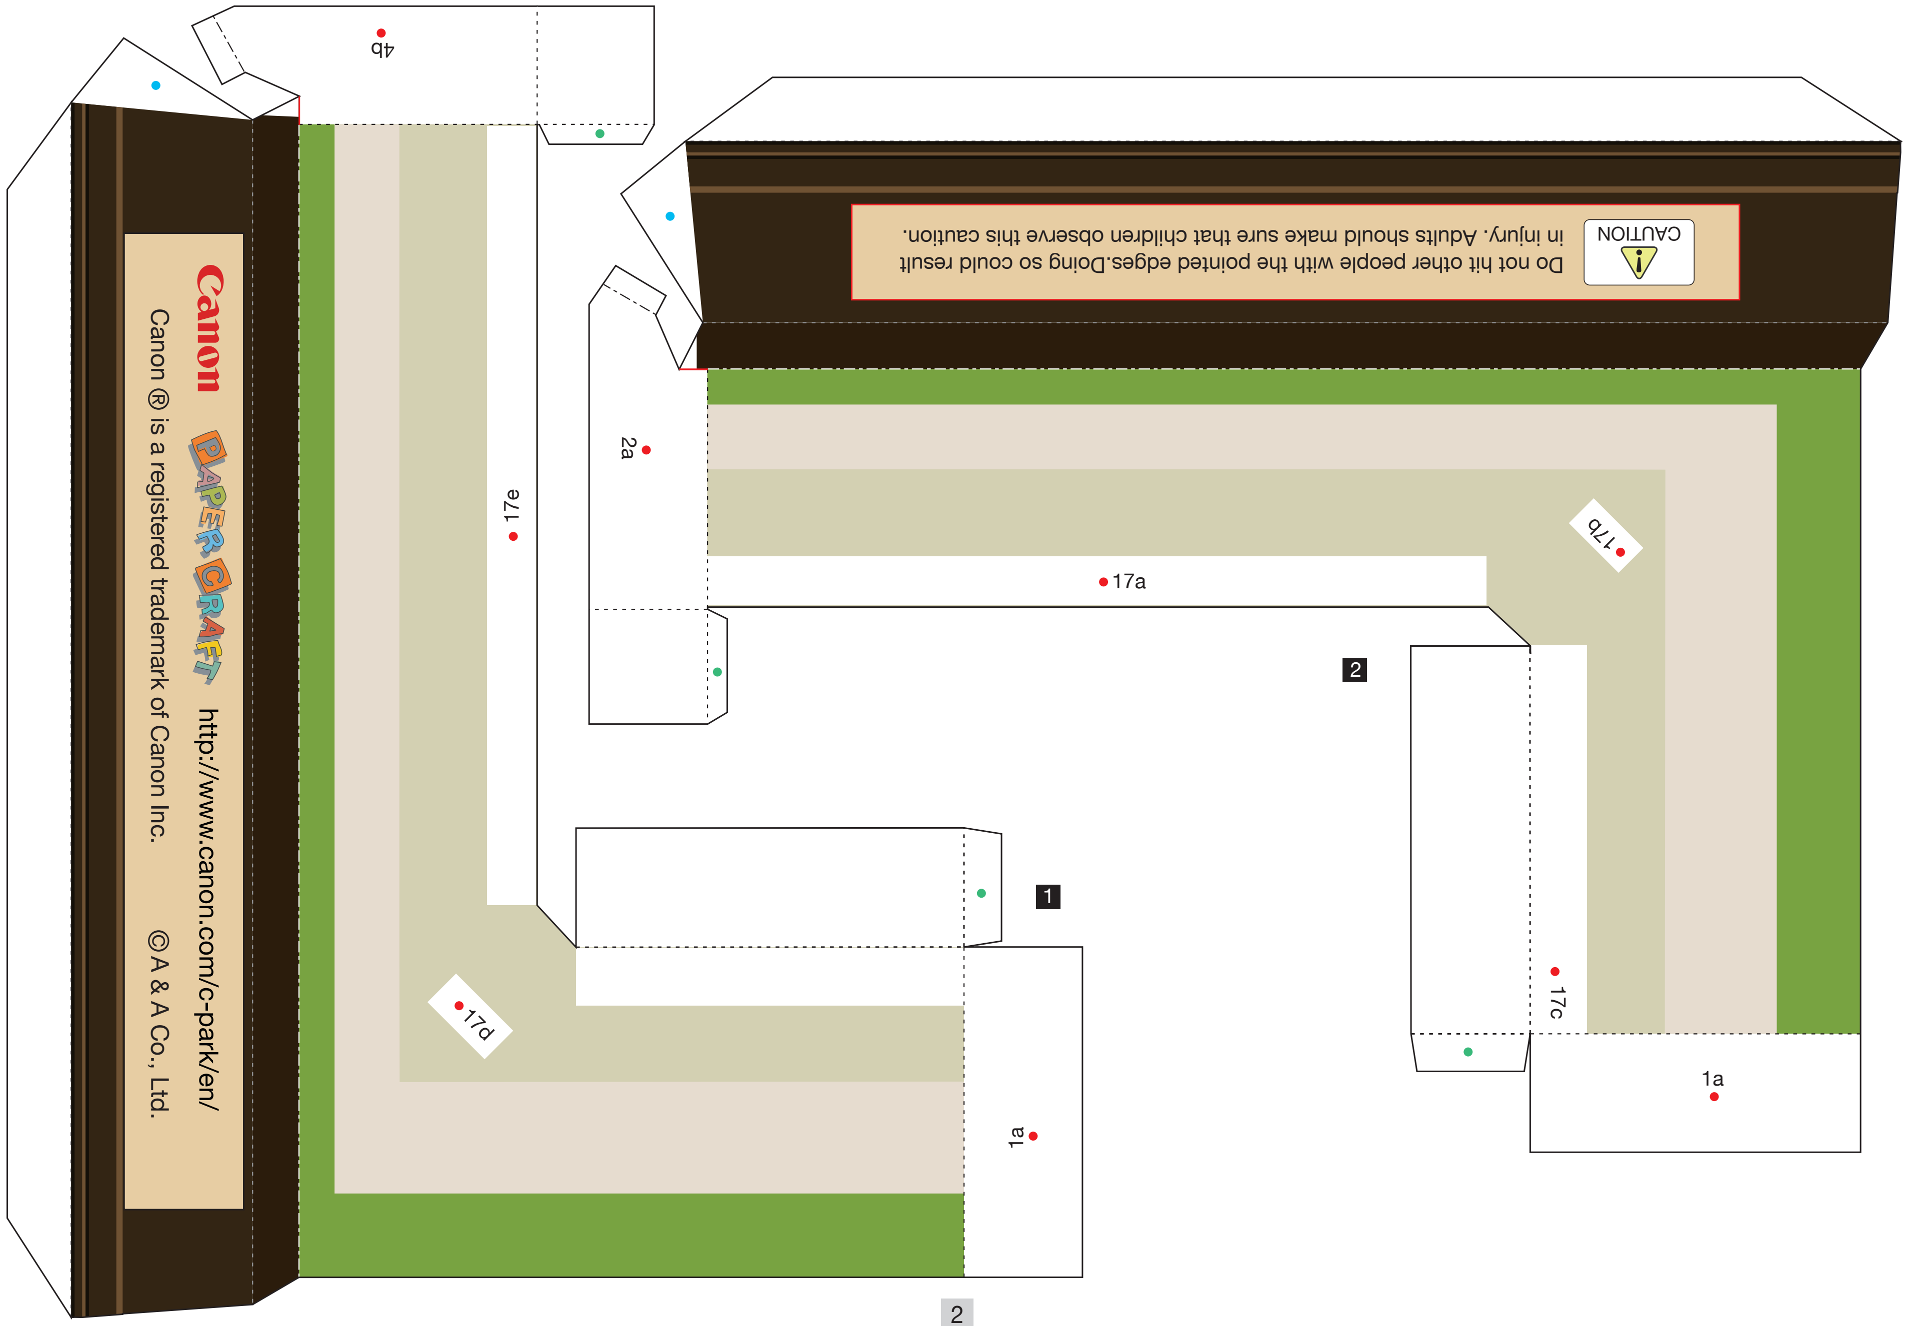

The Taj Mahal is a palatial mausoleum built by the fifth Mughal emperor Shah Jahan in memory of his favorite wife. It was built over a period of 22 years, starting from 1632, by approximately 20,000 workers. With a white marble mosque, front gate, and other structures of perfect symmetry, the Taj Mahal is truly a work of art in every detail.

*This model was designed for Papercraft and may differ from the original in some respects.

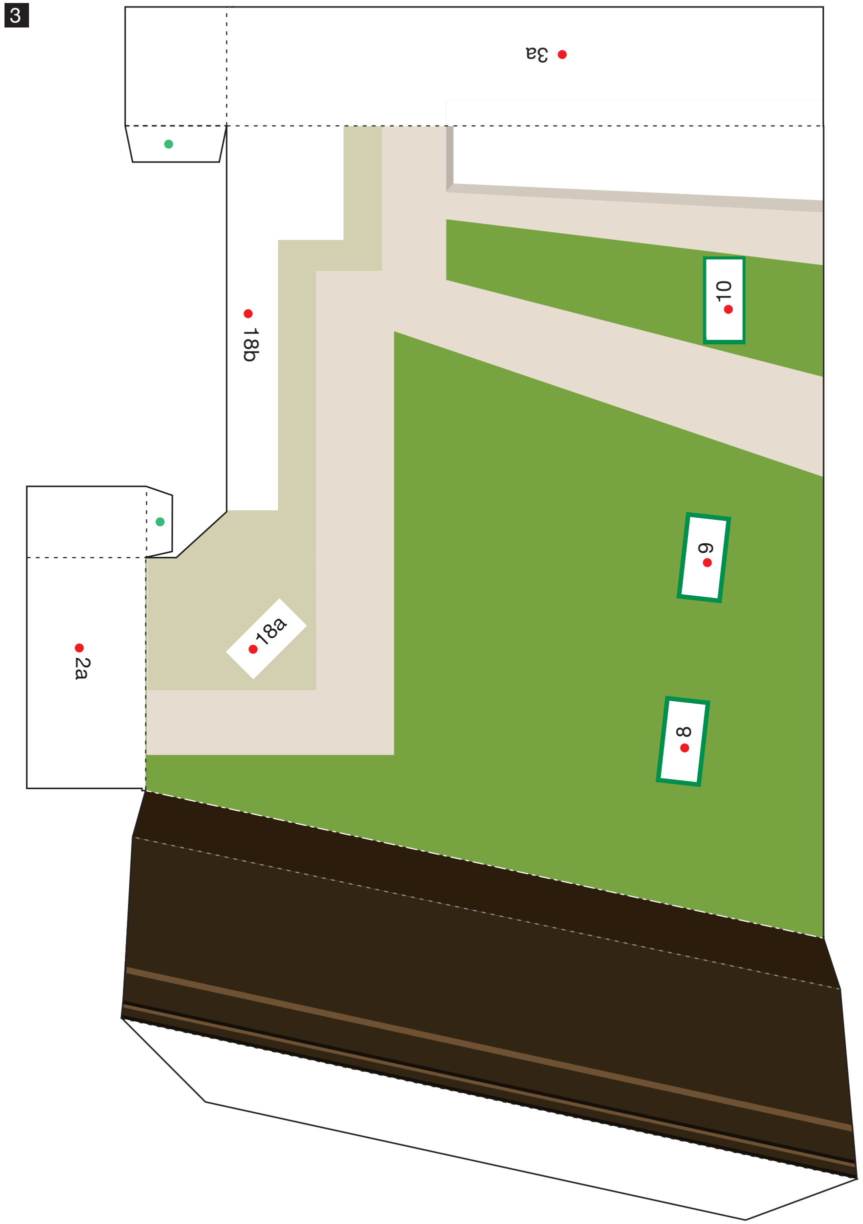

- Parts list(pattern):Ten A4 sheets(No.1 to No.10)
- No. of Parts:82

*Build the model by carefully reading the Assembly Instructions, in the parts sheet page order.
